STATE OF NORTH CAROLINA
DEPARTMENT OF INFORMATION TECHNOLOGY (DIT)
STATEWIDE IT PROCUREMENT OFFICE

Statewide IT Contract Number	**8010B Cybersecurity Professional Services**
Bid / Solicitation Number	DIT 500874-001
Contract Award Type	**MANDATORY FOR EXECUTIVE STATE AGENCIES** CONVENIENCE FOR ALL OTHER PUBLIC ENTITIES
Current Effective Dates	***August 10, 2026 through and including August 9, 2031*** Five (5) Optional One (1) Year Renewal Terms *
Contract Administrator	Allison Howard Email: allison.howard@nc.gov

SCOPE

The purpose of the Cybersecurity Professional Services State Term Contract is to provide qualified Vendors to Agencies across the State to supplement in-house staff to provide the following IT Services Projects.

- **Category A.** Security Program Assessment and Consulting Services
- **Category B**. Application Risk Assessment and Consulting Services
- **Category C.** Penetration Test and Security Assessment Services
- **Category D.** Security Incident Readiness and Response Services
- **Category E.** Vulnerability Management Services
- **Category F.** Network Security Services
- **Category G.** Security Awareness and Training Services
- **Category H.** Security Implementation and Integration Services
- **Category I.** Security Operations Services
- **Category J.** Governance, Risk, and Compliance Services
- **Category K.** Application Security Services
- **Category L.** DevSecOps and Security Automation Services
- **Category M.** Identity and Access Security Services
- **Category N.** Data Security Services
- **Category O.** Cloud Security Services
- **Category P.** Third-Party Risk Management Services
- **Category Q.** Mobile Security Services
- **Category R**. Critical Infrastructure and Operational Technology (OT) Security Services
- **Category S**. Endpoint Security Services

THIS CONTRACT HAS NO SPENDING LIMIT

***Vendors who would like to be added to this contract are required to submit a bid for evaluation during open enrollment or a normal bid opening.**

Registration at https://evp.nc.gov is required for vendors to receive bid posting or open enrollment information.

The commodity code is 801015.

The system will notify vendors when there is a bid posting or an open enrollment.

ABNORMAL QUANTITY

There is no Abnormal Quantity provision for this contract.

ONLY TIME-LIMITED, FIXED PRICED, SCOPES OF WORK (SOWS) FOR PROFESSIONAL SERVICES ARE ALLOWED USING THIS CONTRACT.

In accordance with best procurement practices, Statewide IT Procurement recommends that agencies solicit pricing from multiple vendors whenever possible.

THIS CONTRACT SHALL NOT BE USED FOR ANY KIND OF STAFF AUGMENTATION.

STAFF AUGMENTATION SERVICES MUST BE REQUESTED USING THE IT STAFFING STATE TERM CONTRACT.

The contract is a Statewide IT **MANDATORY** Contract for the use of Executive State Agencies and non-Executive State Agencies as permitted by law.

This is a **CONVENIENCE** Contract for Non-Executive State Agencies which includes the North Carolina University System and its member campuses, Instructional components of the Department of Public Instruction, Instructional components of the North Carolina Community College System, as well as local (municipal and county) governments.

Agencies with the need to acquire services not covered by this contract are required to follow the State of North Carolina IT procurement rules, consistent with 09 N.C.A.C. 06 A & B and established procedures of the Department of Information Technology (DIT).

Additionally, each agency is responsible for managing public records requests involved in the purchasing process conducted under the 8010B Cybersecurity Professional Services Contract. This includes all records necessary to fully document the procurement process in accordance with this contract and NC Statutes.

THE STATEMENT OF WORK:
The Scope of Work is essentially the "who," "what," "when," and "why" of the project. It conveys the vision, purpose, and specific requirements of the project, specific deliverables to be provided by the vendor.

The Scope of Work also must precisely describe the content and format of the Statement of Work Response expected from the prospective vendor.

It is important that the person writing the Scope of Work be very familiar with the master Cybersecurity Professional Services contract and any future amendments. The Scope of Work is an extension of the original solicitation. Familiarity with the master contract and all of its terms and conditions will eliminate repetition and *ensure that the Scope of Work complies with the master contract terms that the awarded vendors have already agreed to*.

8010B CYBERSECURITY PROFESSIONAL SERVICES VENDOR LIST

CATEGORY A: SECURITY PROGRAM ASSESSMENT AND CONSULTING SERVICES

Security program assessment is an organized review of an organization's security practices—covering people, processes, technology, and governance—to understand its current maturity level, identify opportunities for improvements, and evaluate how mature it is compared to industry frameworks like NIST CSF, ISO/IEC 27001, CIS Controls, or ISO/IEC 42001.

Vendor
Accenture LLP
Arthur J Gallagher Risk Management Services LLC (Pending)*
Assura, Inc.
Berry Dunn McNeil & Parker LLC
Bulletproof IT Security Services, a division of GLI Capital Group, Inc.
Cloud9 Security Services, Inc.
Cogent Infotech Corporation
CSRA State & Local Solutions LLC

World Wide Technology LLC

CATEGORY C. PENETRATION TEST AND SECURITY ASSESSMENT SERVICES

*A **security assessment service** evaluates an organization's protection of systems, networks, and data against cyber threats by reviewing policies, configurations, employee practices, and technical controls. It identifies security gaps, ensures regulatory compliance, and suggests improvements.*

***Penetration testing (pen testing) services** are targeted, offensive activities that form part of a wider security assessment. Ethical hackers conduct realistic attacks to uncover and exploit vulnerabilities in systems, networks, or applications. While general security assessments may only point out possible weaknesses, penetration testing shows if those vulnerabilities can truly be exploited and examines their potential impact. Methods include phishing simulations, web application attacks, privilege escalation, and other forms of assault.*

CATEGORY E. VULNERABILITY MANAGEMENT SERVICES

Vulnerability management services are specialized services provided by third-party experts to identify, assess, prioritize, and remediate security weaknesses in an organization's IT systems.

Vendor
Accenture LLP
Science Applications International Corporation
Stellar IT Solutions

CATEGORY F. NETWORK AND CLOUD SECURITY SERVICES

Network and cloud security services *refer to the combination of technologies, policies, controls, and processes designed to protect data, applications, and infrastructure in both traditional network environments and cloud-based systems from unauthorized access, misuse, and cyber threats.*

Vendor
22nd Century Technologies, Inc.
Accenture LLP
Bulletproof IT Security Services, a division of GLI Capital Group, Inc.
CGI Technologies and Solutions, Inc.
Cogent Infotech Corporation
CSRA State & Local Solutions LLC
Eight Eleven Group LLC
KPMG LLP
Mission Critical Partners LLC
Optiv Security, Inc.
Science Applications International Corporation
World Wide Technology LLC

CATEGORY G. SECURITY AWARENESS AND TRAINING SERVICES

Security awareness and training services refer to structured educational programs designed to help individuals, especially employees and contractors, recognize, avoid, and respond to cybersecurity threats such as phishing, social engineering, and data breaches. These services aim to reduce the likelihood of human error, promote consistent compliance with organizational guidelines, and strengthen the overall security posture.

Public Consulting Group LLC
Robert Ferrilli LLC
Science Applications International Corporation
Second Renaissance, Inc.
Slalom, Inc.
Stern Security Inc.
Tego Data Systems LLC
World Wide Technology LLC

CATEGORY K. APPLICATION SECURITY SERVICES

Application Security Services refer to the professional, technical, and process-based support provided to organizations to protect software applications from threats, vulnerabilities, and security incidents throughout their entire life cycle, from design and development to deployment and ongoing operations through decommissioning.

Vendor
22nd Century Technologies, Inc.
Accenture LLP
Assura, Inc.
CGI Technologies and Solutions, Inc.
CSRA State & Local Solutions LLC
Kyndryl, Inc.
Linea Solutions, Inc.
Science Applications International Corporation
Stellar IT Solutions
World Wide Technology LLC

CATEGORY L. DEVSECOPS AND SECURITY AUTOMATION SERVICES

DevSecOps is a way to build security into every step of software development, using automation to catch problems early without slowing down delivery.

Vendor
22nd Century Technologies, Inc.
Accenture LLP
CSRA State & Local Solutions LLC
Eight Eleven Group LLC
Kyndryl, Inc.
Linea Solutions, Inc.
Science Applications International Corporation
World Wide Technology LLC

CATEGORY M. IDENTITY AND ACCESS SECURITY SERVICES

Identity and Access Security Services refer to the policies, technologies, and processes used to ensure that the right people, devices, or software components have the correct level of access to the right resources at the right time, while preventing unauthorized access.

Vendor
Moda Experts (Ugaadhi Group, Inc. dba)
NTT DATA Americas, Inc.
Presidio Networked Solutions, Inc.
Robert Ferrilli LLC
Science Applications International Corporation
Slalom, Inc.
Soteria LLC
Stellar IT Solutions
Tego Data Systems LLC
World Wide Technology LLC

CATEGORY N. DATA SECURITY SERVICES

Data security services are managed solutions and consulting offerings that help organizations protect sensitive digital information from unauthorized access, loss, or corruption throughout its lifecycle.

Vendor
22nd Century Technologies, Inc.
Accenture LLP
Assura, Inc.
CAS Severn, Inc.
CGI Technologies and Solutions, Inc.
Cogent Infotech Corporation
CSRA State & Local Solutions LLC
Kimble and Associates LLC DBA KUMA LLC
KPMG LLP
Kyndryl, Inc.
Optiv Security, Inc.
Public Consulting Group LLC
Science Applications International Corporation
Slalom, Inc.
World Wide Technology LLC

CATEGORY O. CLOUD SECURITY SERVICES

Cloud security services are a combination of technologies, policies, and practices designed to protect cloud-based data, applications, and infrastructure from cyber threats while ensuring compliance and operational continuity.

Vendor
22nd Century Technologies, Inc.
Accenture LLP
Assura, Inc.
CGI Technologies and Solutions, Inc.

CSRA State & Local Solutions, LLC
Eight Eleven Group LLC
EnhancIT LLC (Pending)
KPMG LLP
Linea Solutions, Inc.
Optiv Security, Inc.
Planet Technologies, Inc.
Science Applications International
Slalom, Inc.
Soteria LLC
World Wide Technology LLC

CATEGORY P. THIRD-PARTY RISK MANAGEMENT SERVICES

Third-party risk management services help organizations identify, assess, and mitigate risks associated with outsourcing to external vendors, ensuring operational resilience, regulatory compliance, and cybersecurity.

Vendor
22nd Century Technologies, Inc.
Assura, Inc.
Cogent Infotech Corporation
CSRA State & Local Solutions LLC
Kroll Associates, Inc.
Linea Solutions, Inc.
Moda Experts (Ugaadhi Group, Inc. dba)
NTT Data Americas, Inc.
Optiv Security, Inc.
Science Applications International Corporation
Stellar IT Solutions

CATEGORY Q. MOBILE SECURITY SERVICES

Mobile security services provide dependable solutions dedicated to ensuring the safety of people, property, and digital devices. By integrating mobile patrols, virtual monitoring, and advanced cybersecurity tools, these services deliver comprehensive protection that is both practical and easy to implement. Their adaptable approach means they can address a variety of security needs, offering peace of mind whether safeguarding a physical location or protecting sensitive data online.

Vendor
Assura, Inc.
CGI Technologies and Solutions, Inc.
Cogent Infotech Corporation
CSRA State & Local Solutions LLC
Linea Solutions, Inc.
Science Applications International Corporation

CATEGORY R. CRITICAL INFRASTRUCTURE AND OPERATIONAL TECHNOLOGY (OT) SECURITY SERVICES

Critical infrastructure and operational technology (OT) security services refer to specialized cybersecurity measures and practices designed to protect the systems, networks, and processes that are essential to the functioning of the hardware and software used to monitor and control physical processes, such as valves, pumps, drives, sensors, machines, and industrial control systems (ICS).

Vendor
22nd Century Technologies, Inc.
Accenture LLP
Cogent Infotech Corporation
CSRA State & Local Solutions LLC
Kroll Associates, Inc.
Kyndryl, Inc.
Optiv Security, Inc.
Presidio Networked Solutions, Inc.

CATEGORY S. ENDPOINT SECURITY SERVICES

Endpoint security services focus on protecting devices that connect to a network—such as workstations, servers, and mobile devices. The main objective is to safeguard these endpoints from threats like malware, ransomware, and unauthorized access. Since endpoints often serve as entry points for cyberattacks, securing them is essential for preserving the overall integrity of the network.
