User login guide to access NCGov-Guest SSID via a laptop

Click on Computer Icon in bottom right of screen to open options

Once a popup screen appears, select arrow button beside wifi symbol. This will show you a list of available wireless network SSID's

Select NCGov-Guest

Press "Connect" on this screen

Once NCGov-Guest SSID is selected, you will receive a popup screen to enter the network security key (pre-shared key password) and select Next

You will be presented with a verifying and connecting screen

You will click "Accept" on the Secure Internet Portal splash page acknowledging the terms of use

Login successful screen will appear

Secur	ether distantic lichning	
C Login	Successful	
Tou are now State Wirele	connected to the North Carolina DIT as Quest Network.	

You should see in the list of Wireless Networks that your device is now connected to NCGov-Guest
