

**STATE OF NORTH CAROLINA
DEPARTMENT OF INFORMATION TECHNOLOGY (DIT)
STATEWIDE IT PROCUREMENT OFFICE**

Statewide IT Contract Number **920S - IT Specialty Services**

Bid / Solicitation Number DIT 401105/ITS-400343

Contract Award Type CONVENIENCE

Current Effective Dates October 1, 2025 through September 30, 2027
No Optional Renewal Terms

Contract Administrator Allison Howard
Email: allison.howard@nc.gov

SCOPE

The purpose of the IT Services State Term Contract is to provide qualified Vendors to Agencies across the State to supplement in-house staff to provide the following IT Services Projects.

- Agile Services
- Digital Website Services
- Electronic Content Management Services
- Geographical Information Systems (GIS) Services
- Independent Verification and Validation (IV&V) Services
- IT Application Development Services
- Microsoft Dynamics Customer Relationship Management (CRM) Services
- Process Improvement Services
- Cloud Implementation Services and Cloud Integration Services
- ServiceNow Platform Support Services

THIS CONTRACT HAS NO SPENDING LIMIT

ABNORMAL QUANTITY

There is no Abnormal Quantity provision for this contract.

NEITHER SOFTWARE, HARDWARE NOR CLOUD LICENSES/SUBSCRIPTIONS CAN BE PROCURED WITH THIS CONTRACT.

The contract is a Statewide IT **CONVENIENCE** Contract for the use of Executive State Agencies and non-Executive State Agencies as permitted by law. This is not a mandatory IT Statewide Term Contract. Non-Executive State Agencies include the North Carolina University System and its member campuses, Instructional components of the Department of Public Instruction, Instructional components of the North Carolina Community College System, as well as local (municipal and county) governments.

Agencies with the need to acquire services not covered by this contract are required to follow the State of North Carolina IT procurement rules, consistent with [09 N.C.A.C. 06 A& B](#) and established procedures of the Department of Information Technology (DIT).

Scope IT Specialty Services State Term Contract

Agile Services

Definition: Agile values and principles promote a cultural shift within an organization using collaboration, respect, continuous improvement, and frequent delivery of value to customers. Agile is supported by various frameworks and methodologies that incorporate the elements of incremental delivery and continuous feedback.

Examples of included services:

- Agile Transformation: strategies, roadmaps, assessments, metrics/tools, training, coaching, mentoring, knowledge transfer, pilots, Organizational Change Management (OCM), proof of maturity.
- Transformation Operating Models: adoption, pilot, expansion, change, governance, continuous improvement.
- Frameworks and Methodologies: Scrum, DevOps, DevSecOps, eXtreme Programming (XP), Scaled Agile Framework (Safe), Kanban, Crystal.

Digital/Website Services

Definition: Website is a collection of pages, documents, images, files and other electronic resources connected to the internet and delivered via the World Wide Web. Other relevant digital properties include web applications, apps published on mobile devices, as well existing and emerging channels.

Examples of included services:

- Websites such as government organization, blogs, brochure, program, marketing campaign, and ecommerce.
- Web applications such as dashboards, payment/transactions, forms and workflow, content management systems, and portals.
- Native applications running on mobile devices (i.e. iOS, Android).
- Chatbots.
- Smart speakers.
- Miscellaneous digital channels (watches, appliances, IOT).

Electronic Content Management (ECM) Services

Definition: The primary focus of Enterprise Content Management (ECM) is on capabilities that blend formal document management, rich information governance controls and process capabilities. Key use cases are back-office processing (such as invoice processing), business process applications, document management and records management. ECM platforms are often considered by organizations as part of a digital business strategy.

Examples of included services:

- Web Service Integration.
- Document Scanning and Conversion.
- Capture for SharePoint.
- Vertical Application Support.

Geographic Information Systems (GIS) Services

Definition: A geographic information system (GIS) is a system designed to capture, store, manipulate, analyze, manage, and present all types of geographical data. The key word to this technology is Geography – this means that some portion of the data is spatial. In other words, data that is in some way referenced to locations on the earth.

Examples of included services:

- Planning services.
- Spatial data development and conversion services.
- Spatial application development and implementation services.
- Spatial technical services to include geospatial analysis, integration, assimilation, geospatial modeling, and model development, provide GIS Training, provide cartographic and visualization development and support, and provide geocomputation development and support.

Independent Verification and Validation (IV&V) Services

Definition: Verification and Validation are independent procedures that are used together for in-depth analysis by checking that a product, service, or system meets requirements, independent oversight of SDLC processes and specifications and that it fulfills its intended purpose.

Examples of included services:

- Validation of software design to meet system needs/requirements.
- Traceability of safety critical requirements.
- Design analysis of selected critical algorithms.
- Code analysis of mission-critical software components and the independent oversight and assessment of systems development life cycle (SDLC) processes (such as issue and risk management, requirements analysis, testing, data conversion etc.).

IT Application Development Services

Definition: Application Development is the development of **new applications** which may be mainframe, server, network-based, web-based or a combination. The requirements for new applications may require interfaces to existing applications.

Examples of included services:

- Web application development.
- Mobile application development.
- Service oriented architecture (SOA).
- Researching.
- Analyzing.
- Gathering requirements.
- Designing.
- Programming.
- Testing.
- Documenting and implementing.
- Applying changes to the software language and/or database in which the application is written.
- Providing corrections for production or any changes needed and participation in disaster recovery planning and documentation.

Microsoft Dynamics CRM Services

Definition: Microsoft Dynamics CRM is a customer relationship management software package developed by Microsoft. Dynamics CRM is a server-client application, which, like Microsoft SharePoint, is primarily an IIS-based web application which also supports extensive web services interfaces.

Examples of included services:

- Dynamics solution development and support, training, upgrade testing of existing solutions, report and view generation and security role creation.
- Dynamics workflow development.
- Flow creation and deployment.
- Migration to the Unified Interface.
- Development of connections to API's and other existing applications.
- Solution documentation, project planning and project management.

Process Improvement Services

Definition: Process Improvement is the proactive task of identifying, analyzing and improving upon existing business processes within an organization. This service can help organizations identify the right solution(s) to fix problems when a solution has yet to be identified. It can also help identify problems and improvement opportunities within business process that may not be performing at desired performance levels.

Examples of included services:

- DMAIC (an acronym for Define, Measure, Analyze, Improve and Control) refers to a data-driven improvement cycle used for improving, optimizing and stabilizing business processes and designs.
- DMAIC improvement cycle is the framework used to drive Lean Six Sigma projects.
- Process mapping, problem solving (fishbone diagram and 5-whys), data analysis, project prioritization, and change management.

Cloud Implementation Services and Cloud Integration Services

Definition: Cloud Implementation Services and Cloud Integration Services addresses the skills and disciplines required for Cloud Services from assessment, consulting, strategy planning, integration, mapping, and implementation needed to move State entities into a Cloud environment.

Examples of included services:

- Implementation and/or Planning.
- Integration and/or Planning.
- Migration and/or Planning.
- System Assessments to Cloud.
- Cloud Platform Optimization Services and Planning.

ServiceNow Platform Support Services

Definition: ServiceNow Platform Support Services addresses the skills and disciplines required for ServiceNow Platform services from assessment, consulting, strategy planning, workflow planning, integration, and implementation for the ServiceNow Platform.

Examples of included services:

- Implementation and/or Planning.
- Integration and/or Planning.
- Migration and/or Planning.
- System Assessments to Cloud.
- Cloud Platform Optimization Services and Planning.

NC DOA STC 918B [918B - Procurement of Acquisition Support Services \(PASS\) | NC DOA](#)**Procurement of Acquisition Support Services (PASS)**

This contract covers procurement of **IT and Non-IT** acquisition support services in the following areas:

- Acquisition Planning
- Market Research
- Solicitation & Award
- Contract Management
- Competition & Closeout
- Full Domain Experience
- Organization & Process Improvement
- Policy
- Project & Program Management
- Secure Environment Contracts
- Strategic Planning
- Quantitative or Qualitative Requirements or Resource Analysis & Assessments
- Manpower Programs
- Program Evaluation
- Training
- Category Management

This is a **convenience** contract for state agencies, departments, institutions, universities, community colleges, and non-mandatory entities, including schools and local governments.

PROCUREMENT SUBMITTAL INSTRUCTIONS**AGENCIES USING THE ARIBA SOURCING TOOL**

As of January 23, 2022, all SOWs must be submitted using the Tool.

THE REQUIRED SOW TEMPLATE IS AVAILABLE at the same location as this web summary.

AGENCIES NOT USING THE ARIBA SOURCING TOOL

SOWs must be submitted to submit2.StatewideIT@its.nc.gov with a cc to Allison.Howard@nc.gov.

Email Allison.Howard@nc.gov with any 920S contract questions.

All Agencies should provide the estimated project budget amount to DIT Statewide with the SOW.

The procuring entity will be required to email the SOW to a **minimum of five (5) prequalified vendors** in the category identified in the SOW.

One of the five (5) vendors must be a HUB vendor if there are HUB vendors in the category.

If there are no HUB vendors in the category the five (5) vendor requirement for receipt of the SOW remains.

The Vendors selected for receipt of the SOW will be the only Vendors allowed to respond with a Statement of Work for performance of the requested services.

The names of the prequalified vendors selected for receipt of the SOW must be provide to DIT Statewide with the draft SOW.

SOW responses will be forwarded to the Agency, University, Local Government or Other Public Entity's procurement personnel, who must be identified on the front page of the distributed SOW.

That person should oversee the evaluation of the SOW responses and submittal of the award recommendation to DIT Statewide with the emails showing reviews of the award recommendation by DIT EA, DIT EPMO and DIT ESRMO.

SCOPE OF WORK (SOW) REQUEST PROCESS

Step 1. The agency identifies the IT Service need and with the assistance of their **NCDIT Project Manager**, if needed, prepares the Scope of Work that **must** be submitted **by the Agency's Procurement Department** using the Ariba Sourcing Tool. Entities without access to the Ariba Sourcing Tool should submit their SOW using the submit2.StatewideIT@its.nc.gov.

The required reviews of the SOW by, **DIT EA, DIT EPMO and DIT ESRMO** will be completed in the Ariba Sourcing Tool. Entities who do not use the Ariba Sourcing Tool must obtain their required reviews before and submit their reviews with their SOW.

Step 2. If the SOW is incomplete or non-compliant with procurement regulations or other contract terms and conditions, NCDIT Statewide will return, in the Ariba Sourcing Tool or via email for those entities not able to use the Tool, the SOW to the Agency's/Entity's Procurement Department for revision.

Step 3. Once NCDIT Statewide approves the SOW for distribution, the procuring agency/entity can either email the SOW to a minimum of five (5) category vendors, including one (1) HUB vendor, or to all category vendors.

The Ariba Sourcing Tool is an alternate vehicle for SOW distribution. However, if using the Tool, the SOW must be distributed to all vendor contacts listed in the email distribution list for the category. The list is provided to the procuring agency/entity by NCDIT Statewide upon approval of the SOW for distribution.

Step 4. Vendors are required to submit their response, Statement of Work, to the using Agency/Entity's Procurement Department contact identified in the Scope of Work.

Step 5. The using agency/entity will evaluate the Vendor's Statement of Work using the "best value" method and evaluation criteria stated in the Scope of Work.

- Step 6.** After evaluating the Statement of Work, the agency/entity will then prepare and submit an award recommendation, with all required supporting bid documents, to NCDIT Statewide using the Ariba Sourcing Tool or via email to Allison.Howard@NC.gov.
- Step 7.** After receiving a Certification of Award from NCDIT Statewide, the using agency/entity will issue the contract award to the selected vendor and notify all other participating vendors of the contract award.

DIT Statewide must be provided with a fully executed copy of the contract.

Additionally, each agency is responsible for managing public records requests involved in the purchasing process conducted under the 920S IT Specialty Services Contract. This includes all records necessary to fully document the procurement process in accordance with this contract and NC Statutes.

THE STATEMENT OF WORK:

The Scope of Work is essentially the "who," "what," "when," and "why" of the project. It conveys the vision, purpose, and specific requirements of the project, specific deliverables to be provided by the vendor as well as the criteria that will be used in evaluating the vendors' responses.

The Scope of Work also must precisely describe the content and format of the Statement of Work Response expected from the prospective vendors.

It is important that the person writing the Scope of Work be very familiar with the master IFB contract and Amendment. The Scope of Work is an extension of this original solicitation. Familiarity with the master IFB contract and all of its terms and conditions will eliminate repetition and ensure that the Scope of Work complies with the contract terms that the eligible vendors have already agreed to.

HISTORY

12-02-2025	Vendor security updates.
10-02-2025	Contract renewal and removal of vendors who did not respond and who the state chose not to renew.
05-07-2025	Updated Vendor List (Attain Partners).
04-01-2025	Update Vendor List.
10-10-2024	Renewal Amendment updates. Makers365 LLC classified as a HUB Vendor after receipt of NC HUB Certificate. Incapsulate LLC removed because acquired by Accenture LLP.
06-13-2024	Added TekSystems Global Services, LLC assignment from TekSystems, Inc.
06-13-2024	Added Docufree, Inc. assignment from Advanced Imaging Systems, Inc.
03-21-2024	Added Tech Valley Talent and designated RockitData LLC as a HUB vendor.
03-01-2024	Added 2023 Open Enrollment awarded vendors.
06-05-2023	Received RightDirection Technology Solutions LLC's HUB Certification letter.
04-14-2023	Added 2022 Open Enrollment awarded vendors. Also Cloud Implementation and Integration and ServiceNow Platform Support categories added and awarded.
02-16-2023	Updated Vendor contact information.

01-27-2023 Update the Web Summary to reflect the required use of the Ariba Sourcing Tool, as of January 23, 2023, for submittal of the SOWs.

10-05-2022 Add the two new categories and updated the SOW submittal process to prequalified vendors.

07-25-2022 Highlighted and moved HUB Vendors to the top of vendor listing for each category.
