Purpose

The purpose of this user guide is to assist N.C. Department of Information Technology employees understand and maneuver through the ServiceNow platform to submit Privacy Threshold Analysis (PTA) and Privacy Impact Assessment (PIA) forms.

Virtual training is also available through the NC Learning Center and is assigned, as needed, to employees.

Content Lead

N.C. Department of Information Technology, Office of Privacy and Data Protection

Definitions

Owner

The owner is the individual listed as the agency's Privacy Liaison. This role oversees, reviews, and can complete the Privacy Threshold Analysis/Privacy Impact Assessment

Parent Entity/Agency

The Parent Entity/Agency is the agency that is submitting the Privacy Threshold Analysis/Privacy Impact Assessment.

Privacy Threshold Analysis

A Privacy Threshold Analysis serves as the document used to identify information technology (IT) systems, technologies, rulemaking, programs, information sharing arrangements, or pilot projects that involve public and personal data, and other activities that otherwise impact the privacy of individuals as determined by the N.C.G.S. 132-1.10.

Privacy Impact Assessment

A Privacy Impact Assessment is an analysis of how information is handled to:

- i) Ensure handling conforms to applicable legal, regulatory, and policy requirements regarding privacy.
- ii) Determine the risks and effects of creating, collecting, using, processing, storing, maintaining, disseminating, disclosing, and disposing of information in identifiable form in an electronic information system.
- iii) Examine and evaluate protections and alternate processes for handling information to mitigate potential privacy concerns. A privacy impact assessment is both an analysis and a formal document detailing the process and the outcome of the analysis.

Program Manager

The Program Manager is the individual completing the Privacy Threshold Analysis/Privacy Impact Assessment. Generally, the Program Manager can be the owner or an individual on the project's team assigned to complete the Privacy Threshold Analysis/Privacy Impact Assessment. This role can be reassigned throughout the Privacy Threshold Analysis/Privacy Impact Assessment process.

Accessing the Privacy Threshold Analysis

Accessing the PTA from the Governance and Risk Compliance (GRC) Portal

1. Enter <https://ncdit.servicenowservices.com/esc> in your browser's search bar.

2. Type **Create PTA** in the search bar under **How can we help?**.

- Enter the name of the project, the agency, owner (i.e., the agency privacy liaison), and the program manager in the respective spaces. See the example below.

Key takeaways:

- The **Owner** will be the privacy liaison for the agency.
- The **Program Manager** is the individual completing the PTA. (Please note that the privacy liaison can also be the program manager.)

- Press **Submit**.
- Two** email notifications from **NCDIT Customer Service** will populate to the accounts listed in the **Owner, Program Manager, and Office of Privacy and Data Protection**.
 - The first email will inform all parties that a PTA has been created.
 - The second email will provide a link to the PTA.
- Click the **View assessment** link in the email.

7. Once the privacy assessment page opens, review the assessment description.
8. Click **Start** to begin the PTA form.

Home > Privacy assessment: Privacy Threshold Analysis [PTA Creation Walkthrough — OPDP]

Hi, Javon
Welcome to the privacy assessment. We are looking forward to your valuable input.

Privacy Threshold Analysis [PTA Creation Walkthrough — OPDP]

Record type: Privacy assessment State: Assigned Assignee: Javon Floyd Due date: 07/23/2026 16:42:31

Assessment description:
PTAs are completed to capture information technology or systems that involve public or personal data and decide whether personal identifiable information is collected. Additionally, the PTA will determine whether further compliance documentation is needed, like a Privacy Impact Assessment (PIA).

Accessing the PTA/PIA Through Privacy Workspace

1. Enter <https://ncdit.servicenowservices.com/> in the search bar.

2. In the **Workspaces** menu, choose **Privacy Workspace**.

3. On the **left** side, **click** the **list icon**.

- Under the **Scoping** List, click **All entities**.

- Find the **Filter** icon and click **Advanced view**.

- Search for the term **“updated”** in the search bar and select **Update**.

- The PTA name should appear at the top of the list.

- Click on the PTA.
- Click on **More** and then **Privacy assessments**.

11. Click **Accept work** to assign the PIA to your dashboard.

12. Under the **All** tab, click the **Employee Service Center** link.

The screenshot shows the NCDIT Privacy Workspace interface. At the top, there's a navigation bar with 'All', 'Favorites', 'History', and 'Workspaces'. The 'Privacy Workspace' is selected. Below this, a search bar and several icons are visible. The main content area displays a 'Privacy Impact Assessment [Test 7/9/26]' record. It includes a table with columns for Record type, State, Assignee, and Processing activity. The record is in the 'Assigned' state, assigned to 'Deborah Olagunju', with a processing activity of 'Test 7/9/26'. Below the table, there are tabs for 'Overview' and 'Details'. The 'Details' tab is active, showing a 'Description' section with a paragraph about PIA completion. Below the description is a 'State' section with a progress bar showing five steps: 1. Draft (Completed), 2. Assigned (In progress), 3. Work in progress (Upcoming), 4. Review (Upcoming), and 5. Closed (Upcoming). At the bottom, there's a 'Summary' section with a table listing sections and their status. The table has columns for Section, Status, and Description. The only entry is 'Questionnaire' with a status of 'Open'.

The screenshot shows the NCDIT Employee Service Center homepage. At the top, there's a navigation bar with 'My Tasks', 'My Tickets', 'My Favorites', 'Wish List', 'Cart', and 'Tours'. Below this, there's a header section with 'Human Resources', 'IT', 'Reservations', 'Fulfiller View', 'Location directory', and 'System Status'. The main content area features a large banner with the text 'Employee Service Center' and a background image of hands typing on a laptop. Below the banner, there's a search bar with the text 'How can we help?' and a search button. To the right of the search bar is a 'Report an Issue' button with a warning icon and the text 'Get help with your incident!'. At the bottom, there are two sections: 'My active items' and 'Current status'.

Provide feedback

13. Under **View all**, click **GRC tasks**.

14. In the **Governance and Risk Compliance (GRC) Portal**, under **My to-dos** click the number under **Open**.

For example, in the image below, you would click **3** in the **My to-dos** section.

15. Find the Privacy Impact Assessment in your pending tasks.

16. Once you click on the PIA, select **Start** and **complete the PIA**.

Accessing the Privacy Impact Assessment (PIA)

Once the PTA has been reviewed and approved by the Office of Privacy and Data Protection, an email notification will be sent to the assignee and assignor of the PTA. This email will contain the link to the Privacy Impact Assessment (PIA). Click the **View assessment** link in the email, and the link should open to the PIA page.

The screenshot shows the NCDIT interface for a Privacy Impact Assessment (PIA). The header includes navigation links (All, Favorites, History, Workspaces), a search bar, and a 'GRC Tasks' button. The main content area is titled 'Hi, Deborah' and 'Welcome to the privacy assessment. We are looking forward to your valuable input.' Below this, the assessment is titled 'Privacy Impact Assessment [Test 7/9/26]'. It shows the record type as 'Privacy assessment', status as 'Assigned', assignee as 'Deborah Olagunju', and processing activity as 'Test 7/9/26'. There are buttons for 'Reassign', 'Start', and a menu icon. The 'Assessment description' states: 'PIAs are completed to identify risks and impacts associated with processing of personal identifiable information through information technology; to evaluate protections provided by the program or system, including controls implemented, design and process decisions made, and other mitigations for identified risks associated with the system; and to document the State's participation in the collection and processing of personal identifiable information as it relates to specific information technology or systems.' A 'Summary' table is shown with columns 'Section', 'Status', and 'Description'. It contains one entry: 'Questionnaire' with a status of 'Open'. On the right, there is a 'Compose' section for comments and work notes, and an 'Activity' section showing recent changes by Javon Floyd and the system.

In the event, users do not receive an email notification, they can access the PIA from the Privacy Workspace.

For more information, refer to the section earlier in this document called [Accessing the PTA/PIA Through Privacy Workspace](#).

Request for Revision

After the Office of Privacy and Data Protection completes its review of a PTA or PIA, additional information or clarification may be requested. If so, users will receive an email prompting them to revise their submission. Details about the revision request can be found in the activity section of the assessment page.

The screenshot shows the NCDIT interface for a Privacy Impact Assessment (PIA) in the review stage. The header is the same as the previous screenshot. The main content area is titled 'Hi, Deborah' and 'Thank you for completing the assessment.' Below this, the assessment is titled 'Privacy Impact Assessment [test today]'. It shows the record type as 'Privacy assessment', status as 'Review', and a due date of '09/10/2026 13:48:50'. There are buttons for 'View notes' and 'Show more'. The 'Assessment description' is the same as in the previous screenshot. A 'Summary' table is shown with columns 'Section', 'Status', and 'Description'. It contains one entry: 'Questionnaire' with a status of 'Open'. On the right, there is a 'Compose' section for comments and work notes, and an 'Activity' section showing recent changes by Deborah Olagunju and the system. The activity section shows a message: 'Review was Review in progress' and 'Additional comments'.

Locating Submitted PTAs/PIAs

Once your PTA/PIA is submitted, you can locate them in the Tasks folder. Here, you can find all PTA/PIAs assigned to you or your agency. You will be able to identify how many have been reviewed, approved, or subsequently denied.

The screenshot displays the NCDIT Tasks interface. At the top, there is a navigation bar with 'All', 'Favorites', 'History', and 'Workspaces'. A 'GRC Tasks' button is visible. Below the navigation bar, the 'Tasks' section is active, showing 'Last updated: 07/31/2026 11:19:36'. There are tabs for 'My pending tasks (3)', 'My group's tasks (0)', 'My items (786)', and 'Watchlist (0)'. A filter bar shows 'All' and 'Overdue'. The main table lists tasks with columns: Title, Number, State, Priority, Assignee, and Due date.

Privacy Threshold Analysis Questions

The Office of Privacy and Data Protection has listed below the questions in the Privacy Threshold Analysis. The purpose is to help agencies understand the intention of the question and the information we need to receive to review and subsequently approve their request.

Question 1

Provide a description of project and business objectives.

Rationale: We are looking for a highlight explanation of why the agency is seeking to use the project, tool or system and how it fits into the business objectives.

Question 2

New or Renewal?

Rationale: If this is a renewal to a PTA, Question 3 will trigger, asking for the number of the previous PTA.

Question 3

Project or PTA ID Number for Renewal

Question 4

Will the data collected contain personal information?

Rationale: If the answer is Yes, Question 5 will trigger.

Question 5

Whose personal information will be collected, shared, used, or stored by the project?

- Members of public/constituents
- State employees/contractors
- Third parties (i.e. vendors, partners)
- Others (incarcerated individuals, minors, for research purposes)

Rationale: If the answer is Other, Question 6 will trigger.

Question 6

Please detail whose personal information will be collected, shared, used, or stored by the project.

Question 7

Which types of information will the project collect, share, use, or store?

- Name
- Social Security Number
- Financial Account Number
- Location Data
- Phone Number
- Email Address
- Race / Ethnicity
- Driver's License
- Physical Address
- Family or Marital Status
- Photo or Video
- Gender
- Account Number
- Biometric Data
- Other (please specify in the question below)

Rationale: If the answer is Other, Question 8 will trigger.

Question 8

Please detail the types of information collected.

Question 9

Is this data public data?

- Yes
- No

Question 10

Can you provide the statutory and/or regulatory authority for the collection of this information?

Question 11

Approximate number of individuals affected (estimate over project lifetime)?

Question 12

To the best of your knowledge, is this the first time the personal information will be used, shared, or stored in this way by your agency?

Question 13

Will personal information be shared with third parties?

- Yes
- No

Question 14

Will the project employ the use of new technology not currently used at your agency to collect, store, use, or share personal information?

- Yes
- No

Question 15

Where will personal information be stored?

- Agency-hosted
- State cloud
- Third-party cloud/on-prem/hybrid
- Paper
- Mobile device
- Other

Rationale: If the answer is Other, Question 15 will trigger.

Question 16

Please provide information regarding where the personal information will be stored.

Question 17

From which jurisdiction will the project collect personal information

- US
- Canada
- EU
- Multiple Jurisdictions
- Other

Question 18

Does the process/product process data concerning vulnerable individuals (data subjects including children, mentally ill persons, asylum seekers, elderly, patients)?

Question 19

Will the information retention period for this project comply with agency's record retention schedule?

Question 20

Does the system employ artificial intelligence?

- Yes
- No

Question 21

Will the project's use of personal information comply with agency's privacy policies and contractual obligations?

Question 22

Any additional information that you would like to share regarding the personal data that you are handling?

Privacy Impact Assessment Questions

The Office of Privacy and Data Protection has listed below the questions in the Privacy Impact Assessment. The purpose is to help agencies understand the intention of the question and the information we need to receive to review and subsequently approve their request.

Question 1

Describe the purpose and functionality of the system/project being assessed, including its users and core workflows.

Rationale: We need clarity around what the system does, its interactions, and how data flows across the core processes.

Sample Answer: The system is designed to streamline the collection, processing, and management of operational data related to agency activities.

Question 2

Approximate number of unique individuals whose personal data will be processed by this system or tool.

Rationale: We need to understand the number of individuals affected to determine the scale of privacy risk and the compliance standards for data minimization and proportionality principles.

Question 3

Number of employees assigned to support the information technology in scope for this PIA.

Question 4

What is the relationship between the agency or department and the individual (select all that apply)?

- Resident
- Website visitor
- Employee
- Contingent Worker (3rd Party)
- Strategic Partner (3rd Party)
- Other (please describe on the next question)

Question 5

Specify the range of users whose data is stored as part of this process.

Question 6

Please select the approximate age range of the individuals' personal data which will be processed by the IT system. (Select all that apply.)

- < 13 years of age
- 13 - < 18 years of age
- 18 - < 65 years of age
- 65 years of age or older

Question 7

How is personal data collected? (Select all that apply.)

- Directly from the individual
- Indirectly from a public source
- Indirectly from another government entity
- Indirectly from a non-government entity (3rd party)
- Other (please describe on the next question)

Question 8

Does your system or tool have any AI features or functionalities?

- Yes
- No
- Not Sure (please explain)

Question 9

If yes, please list all AI features and functionalities here.

Question 10

Please list all personal data and user data that is in scope for this PIA.

Question 11

What systems are being used to help with the collection, use, sharing, or storage of personal information?

Option to type response or upload attachment.

Question 12

Is the data state-hosted?

Question 13

As this tool handles sensitive personal information (PII), a justification of purpose is required. Explain the essential and proportional need for the processing of this specific sensitive data to achieve the project's objectives.

Question 14

Do you provide a privacy notice to individuals that is fully compliant with North Carolina's Department of IT's Statewide Privacy Policy and clearly states in plain language all intended purposes and uses of the personal data; the consequences for refusing to provide the personal data; the classes of persons and governmental entities with whom the governmental entity shares personal data?

- Yes
- No
- N/A (please explain)

Question 15

If you meet the criteria in North Carolina's Department of IT's Statewide Privacy Policy, the privacy notice may be posted on the public notice website otherwise it must be posted on the governmental entity. Where is your privacy notice posted?

- Posted on the public notice website
- Not posted on the public notice website

Question 16

If posted on the public notice website, the CIO is attesting to the fact the government entity does not have a government website. Provide a link to the posting on the public notice website as evidence.

Question 17

Will the system or tool use personal data you previously obtained but is being used for a new purpose?

- Yes
- No
- Not Sure (please explain)

Question 18

What is the purpose for processing the personal data? (Select all that apply.)

- **Audits and Inspections:** *Verifying compliance with standards, laws, and policies.*
- **Cultural Preservation:** *Maintaining archives, libraries, and museums.*
- **Crisis Communication:** *Providing updates and information during emergencies or disasters.*
- **Digital Identity and Authentication:** *Enabling access to government services through digital platforms.*
- **Economic and Social Research:** *Understanding trends to design economic and social interventions.*
- **Education Administration:** *Managing student records, attendance, and performance data.*
- **Elections and Democratic Processes:** *Voter registration, election management, and vote processing.*
- **Emergency Response:** *Coordinating disaster relief and public safety in emergencies.*
- **Employment and HR Management:** *Managing government employee records, payroll, pensions, and benefits.*
- **Fraud Prevention and Detection:** *Identifying and mitigating fraudulent activities in public programs and benefits.*
- **Identity and Citizenship Management:** *Issuing IDs, driver's licenses, and maintaining birth, marriage, and death registries.*
- **Infrastructure Development:** *Managing transportation, utilities, and urban planning.*
- **Law Enforcement and Public Safety:** *Criminal investigations, maintaining public safety, and enforcing laws.*
- **Licensing and Permitting:** *Granting business, construction, and other permits or licenses.*
- **Policy Development and Evaluation:** *Analyzing data to inform policy decisions and program improvements.*
- **Public Consultation and Participation:** *Engaging citizens in policymaking, surveys, or town hall meetings.*
- **Public Health Management:** *Managing pandemics, monitoring disease outbreaks, and providing vaccinations.*
- **Public Service Delivery:** *Providing essential services such as healthcare, education, social services, and housing.*
- **Regulatory Oversight:** *Enforcing laws and regulations in areas like environmental protection, financial regulation, and consumer rights.*
- **Subsidy and Benefit Distribution:** *Allocating financial support for eligible citizens or businesses.*
- **Taxation and Revenue Collection:** *Collecting and managing taxes, fees, and other government revenues.*
- **Transparency and Accountability:** *Responding to public records requests and ensuring government accountability.*
- **Website and Service Analytics:** *Monitoring and improving government websites and e-services.*
- **Worker and Public Safety:** *Monitoring and promoting workplace and public safety standards.*
- **Other (please describe):**

Question 19

Do you collect more personal data than is reasonably necessary to efficiently achieve the specified purposes identified above?

- Yes
- No

Question 20

If you collect more personal data than is reasonably necessary, please describe the specific personal data you collect that is not reasonably necessary. If your entity has a minimization plan to dispose of the personal data which is not necessary, please describe.

Question 21

Describe your methodology for ensuring the accuracy and completeness of the personal data collected.

Question 22

Is your agency or department sharing the personal data described in this PIA?

- Yes
- No

Question 23

Do you maintain a list of the names and contact information for the partners with whom you share information?

- Yes

- No

Question 24

Who is the personal data shared with? (Select all that apply.)

- Governmental entity
- Non-governmental entity

Question 25

Describe the intended use of the personal data by the other party.

Question 26

Provide a note as to the length of time your entity is obligated to share the personal data.

Question 27

Describe the final disposition of the data shared with the other entity when the sharing agreement terminates.

Question 28

Question 35

Explain the procedure for removing access to this information for employees who have left your agency or department, individuals who no longer require access or who are no longer with the third party.

Roles and Responsibilities

N.C. Department of Technology's Privacy Liaison, Program Managers and additional team members are responsible for initiating and overseeing the lifecycle of all PTAs and PIAs.

The Office of Privacy and Data Protection is solely responsible for reviewing and approving all submitted PTAs and PIAs.

Review Cycle

This Privacy Threshold Analysis/Privacy Impact Assessment User Guide will undergo a periodic review at annual intervals, or as changes are required. Updates to the guide will be determined based upon the nature of the policy and requirements driven by need.

Any identified changes, or outdated information within the policy will be addressed promptly. This may involve revisions, additions, or removals as needed to ensure that policies remain current and relevant.

The following roles provide leadership and management over this policy in accordance with the NCDIT Policy Management Policy:

- State Chief Information Security Officer (SCISO)
- Chief Privacy Officer
