

Update for Statewide Mapping Advisory
Committee

*Collaborating for Statewide
Standardized Parcel Data*

Working Group for Seamless Parcels

- Which fields are most valuable to consumers?
- How can we populate those fields fully?

Well Populated Fields Most Useful

- PIN
- Total assessed value
- Owner
- Mailing address
- Deed book and page

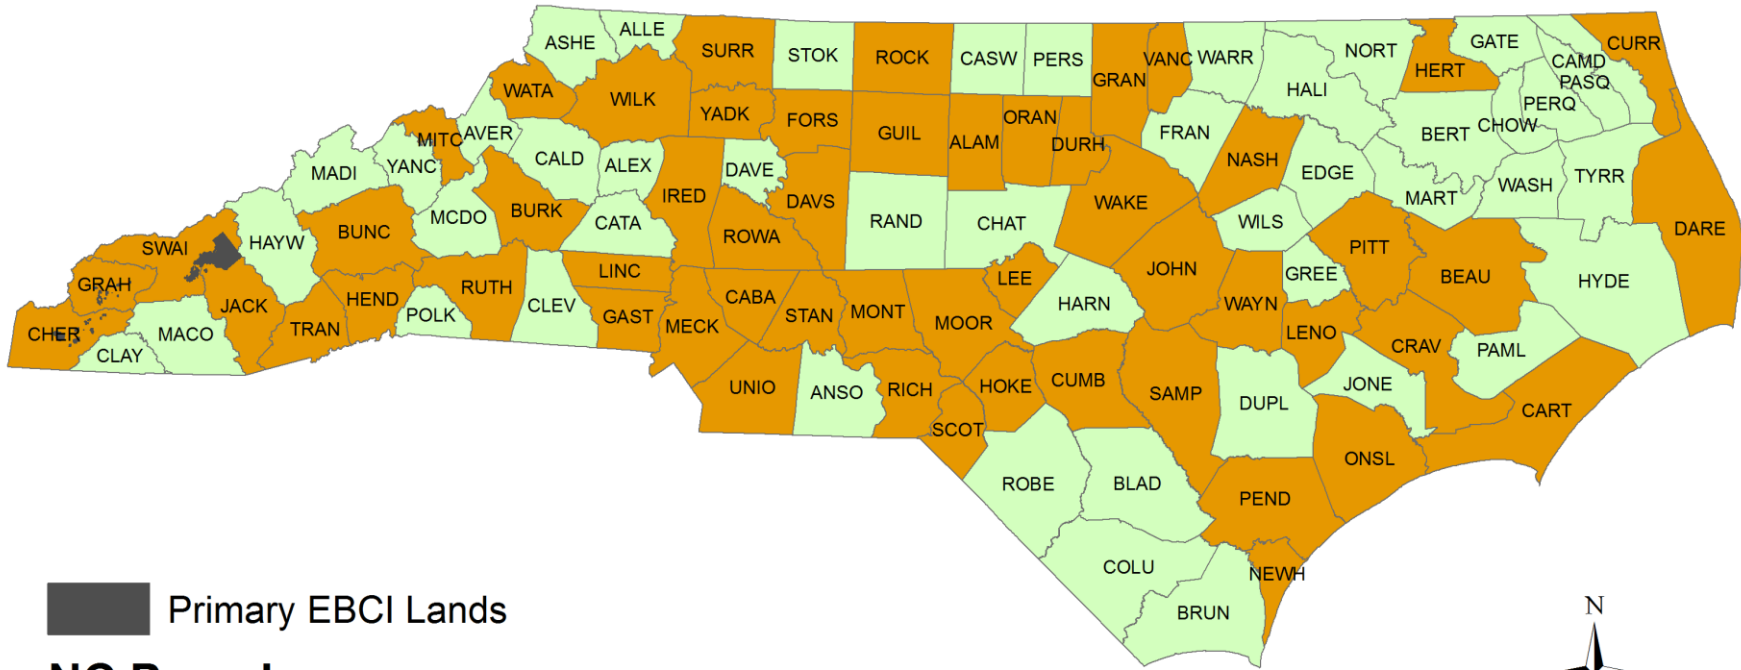

Most Useful Fields Needing Improvement

- GIS calculated acres
- Sale date
- Site address
- Parcel use descriptions
 - primary land use
 - primary building use
- Improvement value
- Present Use Value – yes or no

What's in it for local government?

- Statewide datasets shared by the State
 - NC Orthoimagery
 - Elevation (LiDAR)
- Datasets aggregated and shared by the State
 - NC Parcels
 - AddressNC
 - NCDOT Roads
- Another back-up copy in an emergency
- Serve the public better

NC Parcels Project Status

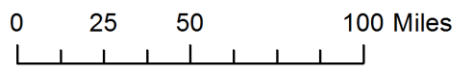

■ Primary EBCI Lands

NC Parcels

■ Fall 2017 (54)

■ Spring 2017 (46)

October 17, 2017

Keep it 100

- Collaboration and data sharing – envy of other states
- Currency – spring and fall
- Consistency – standard fields from variety of source fields
- Completeness – improving population of fields

What Can We Take Back to the Working Group?

- Ideas
- Advice
- Questions

Thank you!
