

- Periodicity and cartography issue

Department of Environmental Quality

- DWR Rules review delay
- Business case development based on HRBS and closer look at NC specific needs
- Suggested
- (iii) A hydrography dataset developed using processes/methods approved by the Geographic Information Coordinating Council. Prior to approving a mapping process/method under this sub-division the GICC. The GICC shall assure that edits, deletions and additions to the hydrography dataset follow approved processes/methods. The EMC will make a determination as to whether these rules shall apply to edits and additions to this hydrography dataset after a 30-day public notice and opportunity for comment. Hydrography developed by the approved mapping processes/methods under this sub-item shall not apply to projects that are existing and ongoing within the meaning of this Rule as set out in Item (6).
- Separate mapping from rules application
