SURVEYS 🗼 WHAT IS A USER SURVEY?

A user survey is a questionnaire designed to collect thoughts, experiences, and opinions from a wide group that can help inform decisions about your product or website.

- Identify improvement opportunities
- Evaluate user satisfaction
- Better understand your audience
- Define & prioritize feature sets
- Helps create a mental model of users

Citizens who are current or past users of your app, service, or website

VHOTOSURVEYS VHOTOSURVEYS

• How people use your product

What features are most important

User satisfaction

• What the value is people see in your product

 Language people use when talking about your product or service

Non-users offer a fresh perspective from people who don't yet know about · Reactions to brand messaging your product or service.

SURVEYS WHO TO SURVEY UNFAMILIAR

• The purest data you can get

• How people describe the value of your product/service

Competitive landscape

Market gaps & opportunities

WHAT MAKES A GOOD SURVEY?

WHAT MAKES A GOOD BAD SURVEY?

SURVEYS 🛑 WHAT MAKES A GOOD BAD SURVEY?

A bad survey can result

in survey fatigue for the

user, causing your data set to be unreliable.

- Too many questions
- Convoluted questions
- Jargon
- Answer choices that don't line up with how users think
- Questions that require long answers

WHAT MAKES A GOOD BAD SURVEYS

A bad survey can also result in unclear, inactionable data for you, the survey administrator.

- Incomplete surveys
- Straight-line answers choosing answers down the same column on a page
- Answers that are vague such as lots of 5s and 6s from a scale of 1-10
- Answers that don't provide new information

WHAT MAKES A GOOD SURVEY?

WINNERS A GOOD SURVEYS

SWAY UX

- Stay away from 1-10 rating scale consider reframing as a question with a binary answer, or ranking specific features/factors instead.
- Don't ask leading questions.
- Ask about one thing at a time.

- Use simple, familiar words
 rather than technical jargon.
- Avoid words with ambiguous meanings - you want all users to interpret the question the same way.
- Be clear & brief.

SURVEYS 🔶 **CONSTRUCTING YOUR SURVEY**

Ask yourself:

What do you want to learn?

What will you do with this information?

Prepare a list of objectives

	COLUMN TO STATE

	COLUMN TRANSPORT

SURVEYS SURVEYS SURVEYS

- Expect a 10-15% response rate
- Send multiple emails and reminders to your survey audience
- Allow 1-2 weeks to collect survey responses

SURVEYS 🔶 **CONDUCTING YOUR SURVEY** Your subject line • Include words such as could make or break your survey. Craft it • Consider including the carefully.

- "Invitation:" or "Reminder:"
- estimated time it will take to complete.
- Include the survey topic.

SURVEYS 单 DOS & DON'TS Don't:

- Ask open ended questions first
- ✓ Ask actionable questions
- ✓ Send multiple invites

✓ Put effort into a compelling subject line

× Use numerical rating scales

× Make your survey too long

× Ask leading questions

× Ask vague, or convoluted questions

Customer Survey

1. Which best describes the size of your company?

O Small (fewer than 100 employees)

O Large (more than 100 employees)

2. What service does

provide you & your company?

3. In your opinion, what is the most noteworthy functionality that

offers?

SURVEYS SURVEYS SURVEYS

submit employees Vorkflow approval complete tablets allows paper integration manner form specific service app TO time partner ability field office information handheld Electronic functionality Mobile
